Bought the soundtrack only, don't care for the this sort of game at all. But the music in the trailer sold me. Also had to keep the game up for 5 minutes in order to write this review, thanks Valve!

I was hoping for 10 tracks for \$10, but you're only getting 7(and they're like a minute each), I was expecting more :(And therefor I'm gonna give it a "No" on the recommendation. I could also listen to them all while waiting for them to open up so I can write this, and they are indeed quite good.. Amazing flight dynamics, and so fun! Get it if you love flying!!!!. People hating, this noobs on my team. Amok gameplay.. The music is great.

The UI, the music and the artwork combine to give the game a dark and weird atmosphere. I actually quite like the pixelly art style too.

Having hexagons instead of the usual squares for this kind of game makes for a nice little twist.

The deal-breaker is that I completed the game in about half an hour and do not feel I have any reason to return to the game.

I think this idea could be very successfull and I urge the developer to expand the game with more content.

As it is a game this short just isn't worth my money and I can't recommend it.. A pug, a penguin, and a cat
Went a jumping, fancy that
In desert, fields, and the snow
That's really all you need to know

It's sold at a decent price
And the game is rather nice
You'll always want to top your score
Which will keep you playing more. Drifting mode is so bad.

A great game.

Branching storyline, small details that crop up, totally new layer on some starting professions, good writing.

My only 'meh' would be the amount of people you get by the end, feels a bit forced.

Then again, they dont come totally out of the blue.

Overall, a great first chapter.. if you have oculus this game is not for you.... it well not work....

all you can do is power up the lathe. none of the oculus controls work in this

and no way to get into settings if there is a settings.

so into this is fixed or oculus is added i would not buy this if you a oculus user

wish i could get my money back but i had this for a some months now with only 0.3 hours of play time :(

. A well-told, morbid short story with some nifty interactions. A cinematic and melancholy experience that shows how immersive (and horrifying) the medium of VR can be. Powerful stuff - and free. Wholeheartedly recommended.. Not bad for Max Payne knock off but the AI is ridiculously accurate than you plus the final boss fight is full of BS. I looked forward to Terra Mystica, not just for myself but for others who could learn the game and enjoy it that didn't have a nearby audience that would be attuned to these types of games.

The digital version, instead of facilitating adoption, inhibits it with a grossly haphazard interface that adds even *more* confusing learning points than the game itself.

Terra Mystica is a simple game with lots of iconic considerations. The digital version obscures the simplicity beyond esoteric interface decisions, a tutorial that leaves more questions than answers, and a lackluster presentation rife with inconsistencies and dead ends.

As a rendition of Terra Mystica, it's sufficient in the way a service elevator will get you to another floor, and no more.

Absolutely could have been a highmark achievement and an opportunity to make Terra Mystica available to a large audience, but fails.

. dont work on oculus
